MSD Notice of Construction

McMicken and Warner Streets Sewer Replacement In the Clifton/University Heights/Fairview Neighborhood of the City of Cincinnati, Hamilton County, Ohio

Cincinnati, December 4, 2006 - The Board of County Commissioners recently approved funding for the McMicken and Warner Streets Replacement Sewer. Managed by the Metropolitan Sewer District of Greater Cincinnati (MSD), a construction contract has been awarded to the Fred A. Newmann Company, Cincinnati, Ohio. Construction is scheduled to begin January 2, 2007 and is expected to be completed by March 1, 2007.

This project will replace a deteriorated combined sewer and provide an increased level of service in the area. The project will involve the installation of 167 feet of 15-inch diameter combined sewer. The awarded construction cost of the project is \$43,650.

This project is part of MSD's ongoing Capital Improvement Program (CIP), which is focused on continually updating and improving the operation of MSD's wastewater collection and treatment systems.

Every day, the Metropolitan Sewer District of Greater Cincinnati (MSD) manages the effective collection and treatment of more than 200 million gallons of wastewater and actively maintains 3,000 miles of sanitary and combined sewers that run through the 49 municipalities and townships of Hamilton County. Owned by Hamilton County and operated by the City of Cincinnati, MSD is committed to continually maintaining and improving its wastewater collection and treatment systems for the betterment of both public and environmental health.
